

Kvitsøy VTS

Kvitsøy VTS is located in Kvitsøy Municipality in Rogaland. The VTS Centre covers the area from Bømlafjord in the north to the Jæren Reef in the south. The centre's main duties include Traffic monitoring, Organizing and Regulation in an area with a relatively high traffic density.

Entering the Kvitsøy VTS service area with vessels with maximum length of 24 metres or more and vessels carrying hazardous or noxious cargo requires clearance from the VTS. For more details see Maritime Traffic Regulation on www.kystverket.no/en/regulations
